

Tool-free shelving solution

IN-FIX

Let us introduce you a revolutionary novelty of shelving system.

Its design allows **easy assembly** without any tools.

High-load capacity racks can have **variable height** in the range from 140 to 200 cm,. You can also choose from a wide range of **sizes** as well as **full or perforated shelves** in sizes from 30 x 60 cm to 60 x 200 cm, depending on your needs, Racks can be equipped with high-quality casters on request .

Offered variants of racks:

IN-FIX INOX STANDARD: construction and shelves made of stainless steel AISI304

IN-FIX ECO: construction made of stainless steel AISI304 and shelves made of polypropylene

IN-FIX ECO COLOR: construction made of steel with coating of gray paint and shelves made of polypropylene

IN-FIX INOX PLUS: construction and shelves made of stainless steel AISI304 - reinforced shelves and stands (higher load capacity).

Racks INFIX are versatile for all facilities or alternatively, for households.

Can't you still imagine what the IN-FIX shelving system would look like in your facility? The use is versatile, Therefore let us show you at least a few examples:

- In health care, social facilities and so forth:

- In gastronomy:

- In variable storerooms:

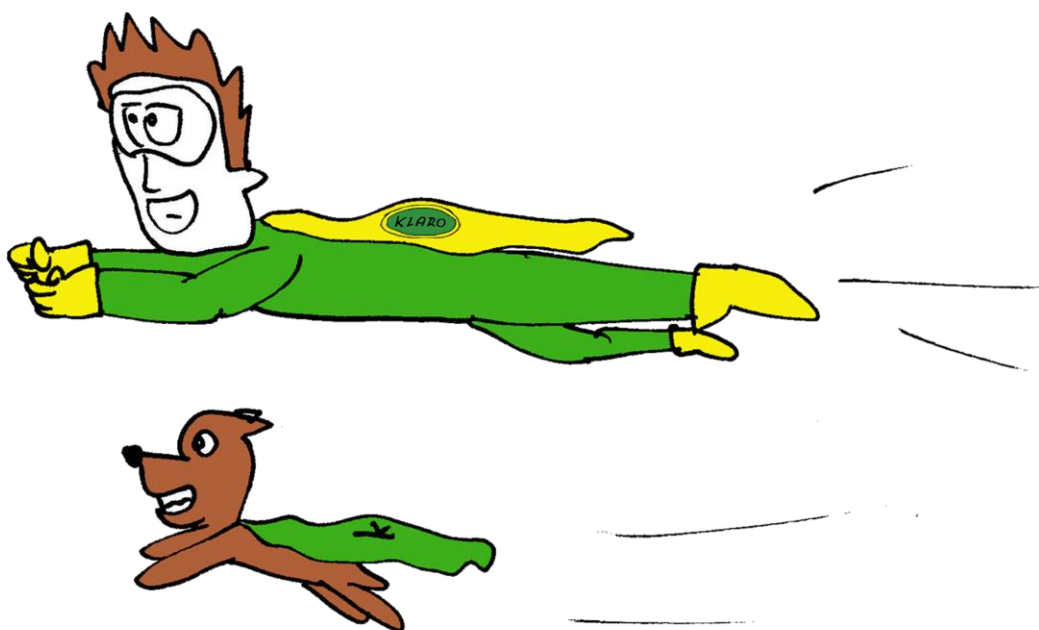

- Or even in shops:

- In wine cellars and others:

The utilization of the IN-FIX shelving solution is endless. It could also become an integral part of garages, car repair shops and similar services.
